

## Higgins Strikes Good Formation

MINERS AT WORK IN TUNNEL EXPECT TO BREAK INTO ORE BODY EACH SHOT.

Better Outlook at Present for Higgins—Mining Men Say That Ore in Winze is Stronger From Southwest Drift of Copper Queen.

Parties who visited the work at the Higgins yesterday returned to town enthusiastic over the outlook at that property for the early encounter of a permanent ore body.

This conclusion is reached owing to the formation at present being encountered in the tunnel that is being driven by the Higgins about one hundred and thirty feet down the mountain from the winze on which work was discontinued about three weeks ago.

The tunnel is being driven into the mountain at the rate of about twelve feet per day, and on yesterday a distance of 120 feet had been recorded, and with each succeeding shot the miners at work in the tunnel expected to lay bare the ore body.

The formation is the same in which every ore body in the district has been encountered, consisting of decomposed ledge matter, iron and calcite.

It will be remembered that when work was discontinued in the winze on the south side of the Higgins claims a good showing of rich ore had been encountered almost from the grass roots, and which had continued for a depth of twenty-five feet. The object of the tunnel which is at present being driven is to intersect this ore at a depth of one hundred and twenty-five feet, and this should be accomplished at the present rate in which work is being carried, some time during the next three days, if the dip of the ore in the winze has been correctly judged.

A director in the Higgins stated yesterday to a Review reporter:

"You can say that never in the history of the development work on the Higgins has the outlook been so encouraging as at the present time."

Other mining men who have visited the latest workings on this property speak of it in the same way, and Higgins may get surprise the camp by making good at the last moment.

Development work next week will be watched with a great deal of interest.

## Nacozari Smelter Making Final Run

TEN DAYS MORE WILL WIND UP ITS WORK.

Closes Down Then For Good—Superintendent Douglas of Moctezuma Co. Talks About Sonora—Excursions Soon to Be Run to Nacozari.

Before departing yesterday with his family for Benson from where he will probably return direct to Nacozari, Superintendent James S. Douglas of the Moctezuma, said that the old smelter at Nacozari in now on its last run, making a general clean up around the plant. It is expected that this smelter will close for good within the next ten days, after which all the smelting for the Moctezuma Copper will be done at the Copper Queen plant in this city. The concentrating mill will be continued at Nacozari and the output will be sent to Douglas to be reduced into bullion.

In speaking of Nacozari and the Sonora country south of Douglas and tributary Mr. Douglas said that bountiful rains had covered the country with grass and caused a general feeling of renewed confidence among all classes.

The new hotel at Nacozari is nearing completion and will be ready to accommodate the public after the 20th instant. It is a large and substantial building and will fill a long felt want in that camp.

Owing to the prevailing high water in the river the El Tigre and the Roy mines have been unable to continue their regular shipments, because of the pack trains being unable to get the ore to the railroad. Both the Roy and the El Tigre are piling up large amounts of ore which will be sent out as soon as the condition of the roads and streams will permit.

On the eleventh and twelfth of this month the Nacozari railroad will run excursion trains from Nacozari on the occasion of the celebrations to occur at Arua Prieta. About the twentieth this road will run a grand excursion train from Douglas to Nacozari on the event of the opening of the new road there.

Fresh New York oysters always on hand at the English Kitchen. Served day and night.

## Your Eyes

Have them looked after by a reliable eye specialist. DR. L. M. SWIKERATH of Phoenix will remain at the Copper Queen hotel until Tuesday evening, Sept. 13th. Don't fail to see him while he is here. Prices for glasses reasonable. Call any time during the day or evening. Consultation and examination free.

## Plenty of Men Now at Paradise

SUPERINTENDENT KNOWLES IN THE CITY ON A BUSINESS VISIT FOR ONE DAY.

Two Shafts Are Being Sunk by the Company, and the Development Work So Far Has Been Entirely Satisfactory—All of the New Machinery Has Been Installed.

Superintendent J. H. Knowles, of the Chiricahua Development company is in the city on a short visit on business from Paradise, the home of the Chiricahua Development Co. which is made up of Michigan and Duluth capitalists on the same order as a number of development companies at present operating in the Warren Mining district.

Mr. Knowles was seen at the Copper Queen Hotel yesterday by a Review man, and stated that the development work being carried on by the company in the California district was progressing most satisfactorily, and that the new machinery was all in place and working like a charm.

The Chiricahua Development company is at present engaged in sinking two shafts. One is a three-compartment, and has attained a depth of two hundred and twenty-five feet. The second shaft is a two compartment, five by nine.

It is the intention of the Chiricahua Development Co. to continue the sinking of the shafts to a depth of five or six hundred feet, and upon the formation at that depth depends the future operations of the company.

Mr. Knowles stated that some rich ore had been discovered near Paradise, but there was no occasion for men rushing into Paradise expecting to find employment, for they would be disappointed.

Paradise now boasts of a population numbering about five hundred, and a justice precinct and school district has been established.

Mr. Knowles will return to Paradise this morning.

## ORDINANCE NO. 42. . . .

An Ordinance to Provide Revenue for the City of Bisbee, Cochise County, Territory of Arizona, for the year A. D. 1904.

Be it ordained by the Mayor and Common Council of said City of Bisbee, as follows:

Section 1. That there be and there is hereby levied upon the assessed value of the real and personal property within the said City of Bisbee, as shown by the equalized assessment roll of the said City for the year A. D. 1904, the following taxes:

Sec. 2. Four mills on the dollar of such assessed valuation for the purpose of defraying the salaries of officers, and the ordinary and contingent expenses of said City, not otherwise provided for; and two mills on the dollar for such assessed valuation for the purpose of constructing and repairing streets, sewers and sidewalks or bridges and culverts upon such streets, sewers and sidewalks.

Sec. 3. This ordinance shall take effect and be in force from and after the date of its passage by the Common Council and approval by the Mayor.

Passed and adopted by the Common Council of the City of Bisbee this fifth day of September, 1904.

JOHN S. TAYLOR,  
Mayor of the City of Bisbee.

Attest:  
C. W. HICKS, City Clerk.

## BABY SALE

There are a great many hungry hearted women who would attend a baby sale if babies were ever offered for sale, because there are a great many wives who love children and have been told by physicians that they can never hope to nurse a child of their own.

Some of these women who have used Dr. Pierce's Favorite Prescription for the cure of womanly ills have been made happy mothers as a result of the cure of womanly disease and the building up of the general health.

Doctor Pierce's Favorite Prescription makes weak women strong and sick women well. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

"I wrote to you some time ago to get information about my case," says Mrs. Mary Lee Flanagan, of Dryden, Va. "I was troubled with female weakness and pains. Received answer from you advising me to take Doctor Pierce's Favorite Prescription and 'Golden Medical Discovery.' I took two bottles of 'Favorite Prescription' and found it did me good. I had been married four years and had no children; now I can say that our house is blessed with a little baby boy, born July 15th, by the help of God and your medicine. I praise your medicine highly."

FREE. Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.
